INTRODUCTION

This document describes the *Judgement Execution* portal in the *Rwanda Integrated Electronic Case Management System (Rwanda IECMS)* application developed for the Justice, Reconciliation, Law and Order Sector (JRLLOS) of Rwanda. It provides the necessary instructions that the users should follow during the online auctioning process. The document is addressed to those who will use the *Judgement Execution* portal to bid for assets auctioned to be sold in the margins of the judgement execution cases.

OVERVIEW

The *Integrated Electronic Case Management System for Rwanda (Rwanda IECMS)* is an automated information management system, which is designed within the initiative of modernizing Rwanda's Justice, Reconciliation, Law and Order Sector (JRLLOS). It is intended to ensure improved access to and transparency of justice information both for the government institutions and general public. Moreover, the system aims at facilitating information sharing at key decision points, as well as to improve efficiency and coordination of the police, prosecution, and court activities in the Republic of Rwanda. Furthermore, it is intended to replace the paper-based case records and static spreadsheets and workflows with their computerized counterparts in order to enable full reproduction of cases along with case proceeding information in the event of loss or physical damage of the case file.

The main objective of *Rwanda IECMS* is to serve as a centralized and unique database for all justice sector institutions, including the Rwanda National Police (RNP), National Public Prosecution Authority (NPPA), Rwanda Judiciary (RJ), and Rwanda Correctional Services (RCS). Also, it is a sector-wide platform to assist all the officials accessing the system to have an easy and ad-hoc access to the information required for processing the cases and implementing day-to-day operations. *Rwanda IECMS* is intended to help to standardize case record information storage and to streamline current processes, and, thus, ensure more effective follow-up at different levels. It is also the main database and data collection and reporting system as it guarantees effective access to the case data, promotes accountability, and increases public trust and confidence.

Rwanda IECMS consists of the following applications, each dedicated to one justice agency and used to handle their business processes:

- Investigation
- Rwanda National Public Prosecution Authority
- Rwanda Judiciary
- Rwanda Correctional Service
- Civil Litigation Service
- Judgement Execution

The *Judgement Execution* portal is an online auctioning portal enabling auction participants to bid for moveable and immovable properties distrained in the margins of the judgement execution cases. The portal gives access to viewing and bidding for assets, as well as purchasing them. The *Judgement Execution* portal is developed with the purpose of providing an online auctioning platform involving multiple bidder participation and is integrated with the *Rwanda IECMS* database for data exchange.

Rwanda IECMS provides a web-based user interface and requires having a web browser pre-installed.

ACCESSING THE JE PORTAL

To access the *Judgement Execution* portal, copy the following link in your browser's address line: training.iecms.gov.rw/auction. Once the portal starting screen opens (Figure 1), you can either view the details of the online auctions and the properties sold or sign up for a user account to participate in online auctions.

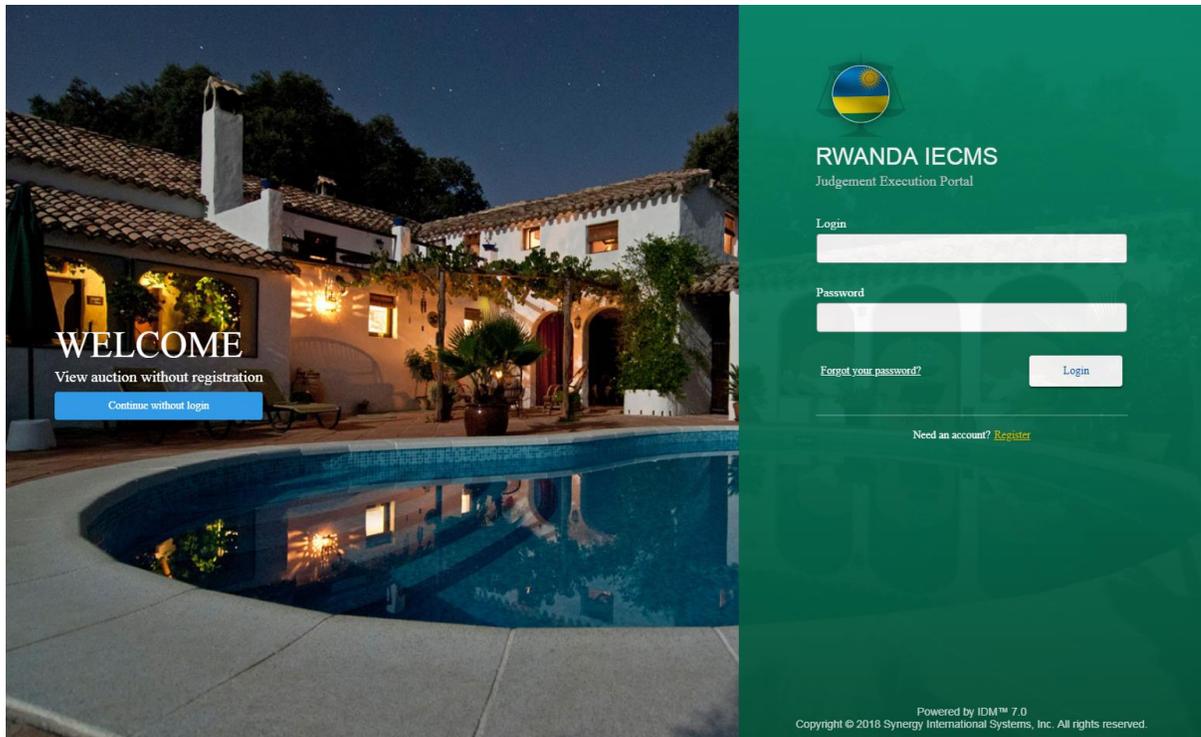

Figure 1: Judgement Execution Portal Starting Screen

The chapters that follow describe how you can enter the online auction site to view the auction schedules and assets sold at them. They also provide instruction on how you can sign up for a user account to bid for the moveable and immovable properties sold at auctions.

Viewing Auctions Without Registration

To ensure more flexibility and to provide access to a wider range of buyers, the portal is designed to allow public users to enter it without registration. Non-registered users can only view the details of the online auctions and the properties sold at them.

If you want to view the details of the online auction held or to be held, click the **Continue without login** in the portal starting screen (Figure 1). This redirects you to the *Auction* page displaying the following sections: *Auction* (this section displays the details of the scheduled, adjourned, and completed auctions organized into tabs according to their status), *Assets*, and *Voluntary Agreements*.

Signing up for an Account

If you want to participate in online auctions and bid for moveable and immovable properties to purchase them, you need to sign up for a user account for the *Judgement Execution* portal.

To sign up for a user account, follow the steps below:

1. Click the **Register** button in the *Login Screen*. A *User Registration Form* appears (Figure 2).
2. Fill in the following fields in the *User Registration Form*:
 - Name
 - Last Name
 - Username
 - Password
 - Email
 - Address
 - Enter security code
 - Id
 - Phone
 - Type a security question
 - Answer
 - Default Language

Note: When filling in the form, make sure to enter a valid Rwandan phone number. This number is used to send an account activation code. You need to provide this number to activate your user account and bid for assets sold.

User Registration: Step 1 of 2

Please fill in the form below to create an account

Name *	Last Name *
<input type="text" value="Smith"/>	<input type="text" value="Do"/>
Username *	Password *
<input type="text" value="Smith Doe"/>	<input type="password" value="....."/>
Email *	Address
<input type="text" value="smith.do@gmail.com"/>	<input type="text" value="Address"/>
Enter security code *	<input type="text" value="9ya1wt"/> 
<input type="text" value="9ya1wt"/>	
Id

<input type="text" value="English"/>	

Figure 2: User Registration Form

3. Click the **Create account** button to submit the inserted information. Upon submission, an account activation code is sent to you via SMS.

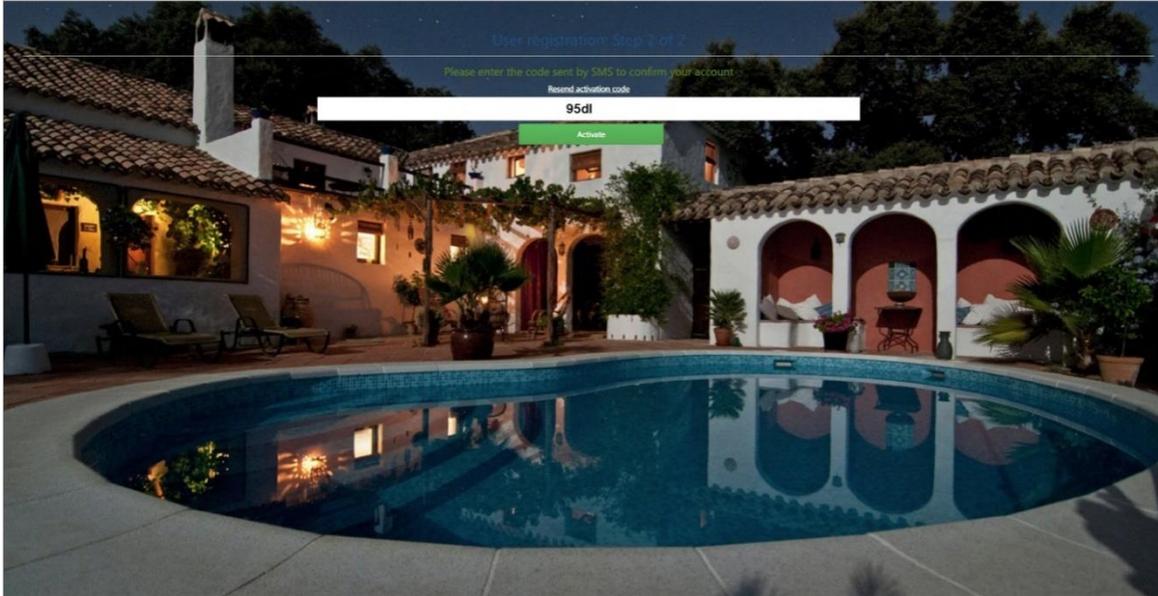

Figure 3: Recording the Account Activation Code

4. Insert the account activation code in the required field to activate your account (Figure 3).
5. Click the **Activate** button to finalize the registration process.

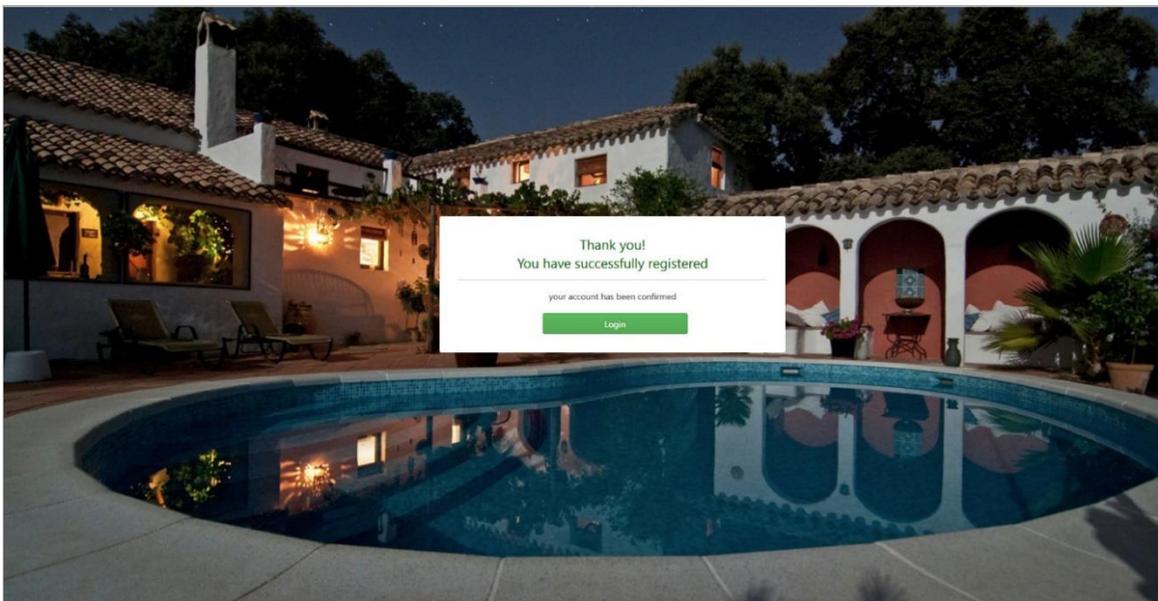

Figure 4: Activating a User Account

Logging into Judgement Execution Portal

After the account registration is completed, you need to log into the portal with your validated username and password to participate in online auctions of judgement execution cases and buy confiscated assets.

To log into the portal, enter your username and password in the respective fields in the portal starting screen and click the **Login** button (Figure 1). Please, note that the password is case sensitive.

Note: If you have failed to log in several times, the portal is blocked. Contact your system administrator to unlock your user access. The number of unsuccessful login attempts is defined by the login policies adopted for the portal.

Recovering Your Password

The accounts of registered users in the *Judgement Execution* portal are password-protected. This means that you need to validate yourself with a username and password every time you log into the portal.

If you have forgotten your password, you can retrieve it by clicking the **Forgot your password?** link in the portal starting screen (Figure 1) and authenticating yourself. After submitting your identity information, your password is reset and a new password is sent to the e-mail address associated with your user account.

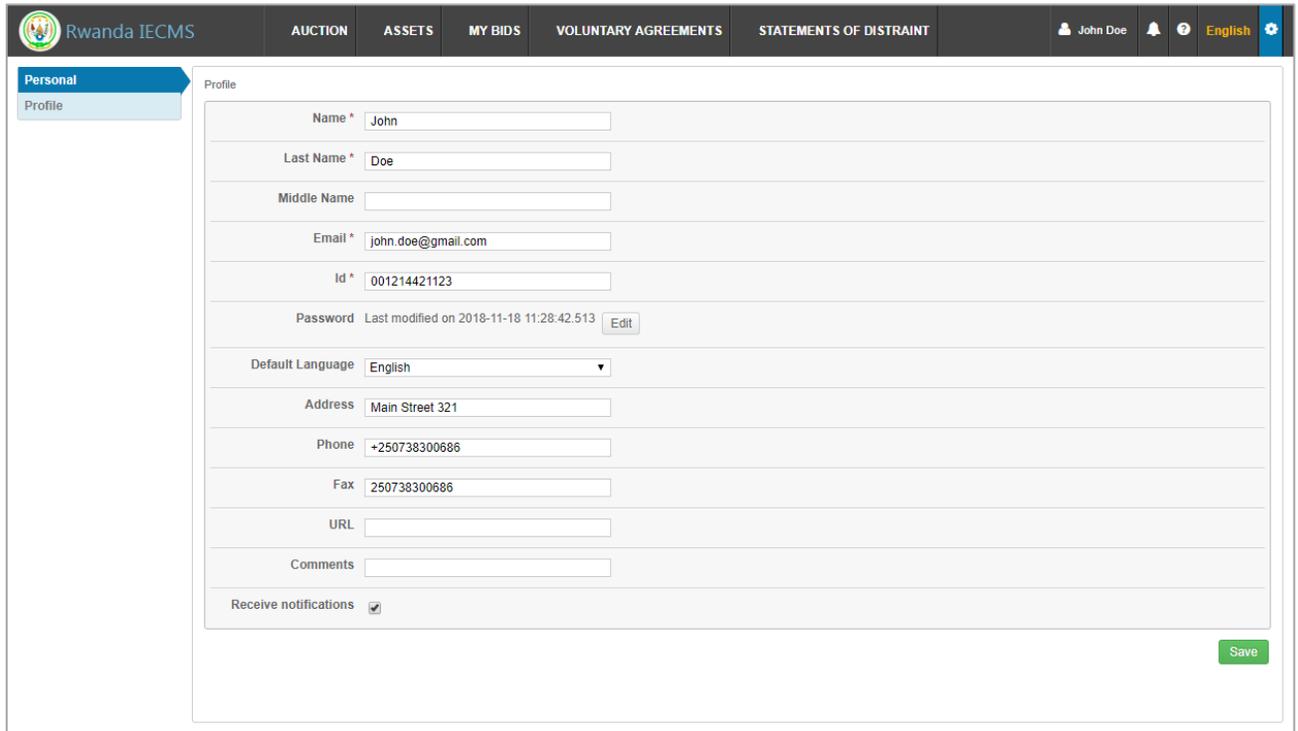

After you log into the portal with the received password, you are recommended to change it. For more details on how you can manage your personal and account information, see [Updating Your Profile](#)**Error! Reference source not found.**

Updating Your Profile

Once logged in, you can manage your personal details, i.e. change the data (e.g. name, password, email, etc.) provided during registration. To edit your personal details, follow the steps below:

1. Log into the portal.
2. Click your username in the portal header and select the **My Profile** option (see

3. [ONLINE AUCTIONING PORTAL STRUCTURE](#)). You are directed to the *Profile* section of the portal where your user account information is displayed (**Error! Reference source not found.**).
4. Make the appropriate changes in the data displayed.
5. Save the changes made.

The screenshot displays the 'Profile' section of the Rwanda IECMS portal. The top navigation bar includes the Rwanda IECMS logo, the text 'Rwanda IECMS', and several menu items: AUCTION, ASSETS, MY BIDS, VOLUNTARY AGREEMENTS, and STATEMENTS OF DISTRRAINT. On the right side of the navigation bar, there is a user profile icon for 'John Doe', a notification bell, a language dropdown set to 'English', and a settings gear icon. The main content area is titled 'Profile' and contains a form with the following fields and values:

Name *	John
Last Name *	Doe
Middle Name	
Email *	john.doe@gmail.com
Id *	001214421123
Password	Last modified on 2018-11-18 11:28:42.513 <input type="button" value="Edit"/>

Figure 6: Judgement Execution Portal Structure

It contains the following components:

Component Name	Description
----------------	-------------

Header

This is the portal header that contains the application name and logo. On the right side, the following options are available:

- **User Name** – the name of the user logged in the *Judgement Execution Portal*.
 - **My Profile** – this opens your personal settings and details. For more details, see [Updating Your Profile](#).
 - **Logout** – this button is used to log off the portal.
- **Notifications**– this contains user related system notifications. For more details, see the *Rwanda IECMS Analytical Interface User Manual* in [REFERENCES](#).
- **Help Icon** – this contains a menu of system help items.
 - **Contact Support** – sends an email to the Support team.
 - **About** – provides a short overview of the technologies underlying the *Judgement Execution Portal*.
 - **Help** – opens the listing of all user manuals available in the system in the PDF format, as well as other help options available in the system.
- **Settings** – opens the administrator’s tools used to configure the application.

The following tabs are available here:

- **Auction** – displays the details of the scheduled, adjourned, and completed auctions organized into tabs according to their status. For more details, see [AUCTION SECTION](#).
- **Assets** – displays the assets to bid for, as well as the assets sold at online auctions. For more details, see [ASSETS SECTION](#).
- **My Bids** – displays bids offered by registered users of the *Judgement Execution* portal for purchasing confiscated properties. For more details, see [MY BIDS SECTION](#).

	<ul style="list-style-type: none"> • Voluntary Agreements – displays all voluntary execution agreements between the judgement debtor and buyer, aimed at making a compromise over issues regarding the debt payment. For more details, see VOLUNTARY AGREEMENTS SECTION. • Statements of Distraint – displays statements regarding the property seizures aiming to obtain the money owed. For more details, see STATEMENTS OF DISTRAINT SECTION.
Workspace	This frame is used to display and manage the content of the <i>Judgement Execution Portal</i> , including auctions, assets, bids, etc.

WORKING IN THE JUDGEMENT EXECUTION PORTAL

The online auctioning portal gives users the opportunity to view auction details, sign up for an account in the *Judgement Execution Portal*, bid for an asset and manage the bids they have made. This way, the information displayed in this portal includes the listings of scheduled, adjourned, and completed auctions, confiscated assets and assets scheduled to be sold, voluntary agreements, and statements of distraint.

This chapter describes what mechanisms for organizing entries exist in the *Judgement Execution Portal*. More specifically, it describes how you can set the number of entries per page, sort the entries, and browse them.

Setting the Number of Entries per Page

By default, each sub-section in the *Judgement Execution* portal is set to display 15 entries per page to ensure fast page loading. However, you can define to view a lower / greater number of entries per page. Please, note that setting a higher number of entries to display on each page can potentially impact page load time since you will load more data with each page.

To set the number of entries per page, follow the steps below:

1. Go to any sub-section of the *Judgement Execution Portal*.
2. Select the preferred number from the respective drop-down list in the upper right corner of the page. The total count of items is displayed on the left side of the drop-down list (Figure 7).

Note: To locate the number that you are looking for easily and instantly, you can enter the keyword in the search box above the drop-down list.

Statements of Distraint

Execution Case Number	Enforcement Order No	Statement Date	Property owner	Assets

Total Count 72 15

1 2 3 ... 5

Figure 8: Sorting Entries

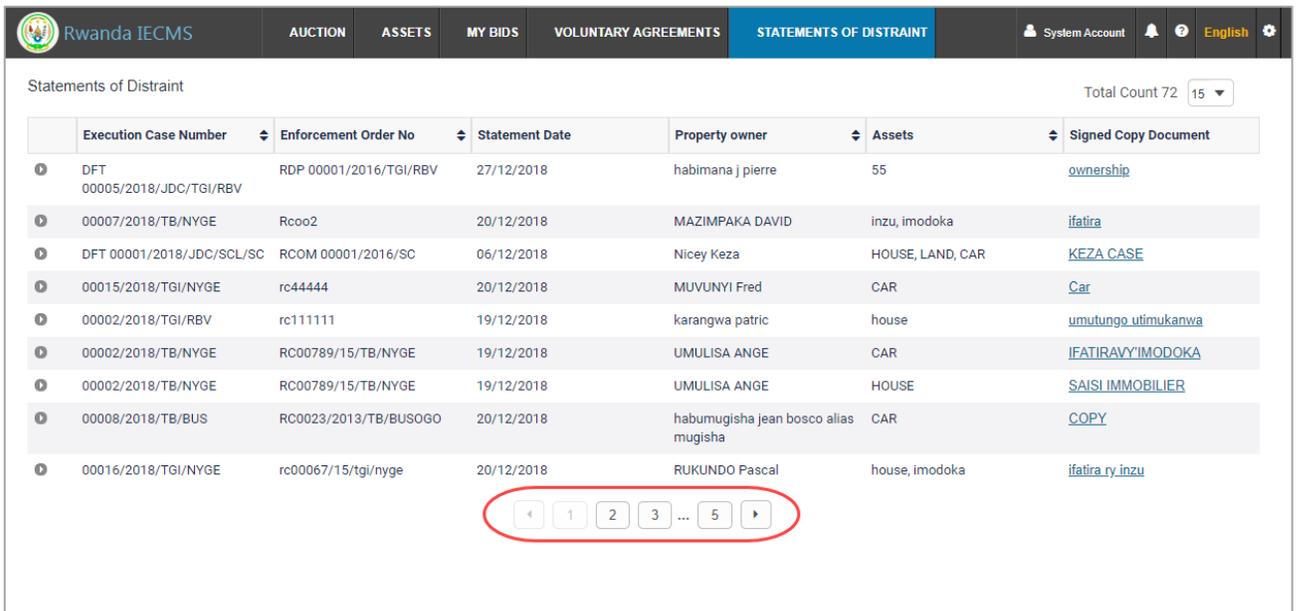

To sort the entries, follow the steps below:

1. Go to any sub-section of the *Judgement Execution Portal*.
2. Click the arrow icon in the header of the sub-section table column. This sorts the entries in the table alphabetically or numerically depending on the type of data entered into that column.

Browsing Entries

All sub-sections of the *Judgement Execution* portal are enhanced with the pagination option. This means that entries in the sub-sections are split into pages for paged navigation.

To navigate through the pages, you can use the page numbers at the bottom of the sub-section table, as well as the  (Previous) and  (Next) buttons.

The screenshot displays the 'Statements of Distraint' section of the Rwanda IECMS portal. The table lists various cases with columns for Execution Case Number, Enforcement Order No, Statement Date, Property owner, Assets, and Signed Copy Document. A pagination control at the bottom of the table shows page numbers 1, 2, 3, and 5, with an ellipsis between 3 and 5. The page number 5 is highlighted, and the navigation buttons are circled in red.

Execution Case Number	Enforcement Order No	Statement Date	Property owner	Assets	Signed Copy Document
DFT 00005/2018/JDC/TGI/RBV	RDP 00001/2016/TGI/RBV	27/12/2018	habimana j pierre	55	ownership
00007/2018/TB/NYGE	Rcoo2	20/12/2018	MAZIMPAKA DAVID	inzu, imodoka	ifatira
DFT 00001/2018/JDC/SCL/SC	RCOM 00001/2016/SC	06/12/2018	Nicey Keza	HOUSE, LAND, CAR	KEZA CASE
00015/2018/TGI/NYGE	rc44444	20/12/2018	MUVUNYI Fred	CAR	Car

Figure 10: AuctionSection

The following sub-sections are available in the *Auction* section:

- Scheduled
- Adjourned
- Completed

The sub-sections listed above are organized into navigation tabs for ease of record management.

Scheduled Auctions

The *Scheduled* sub-section displays auctions that are planned to be held. The entries in this sub-section are organized into a table having the following columns:

- Online start date
- Online end date
- Time left
- Second phase date
- Second phase location
- Status

- Assets
- Enforcement order number
- Execution case number
- Publication notice

Scheduled			Adjourned			Completed			Total Count 2		15	Filter
Online start date	Online end date	Time Left	II phase date	Second phase location	Status	Assets	Enforcement order number	Execution case number	Publication Notice			
28/12/2018 12:00	28/12/2018 13:30		28/12/2018 00:00	Kayonza, Murundi, Ryamanyoni, Rwakabanda	Scheduled	isambu	504	00002/2018/ABZ/TB/CYE	Cyamunara			
27/12/2018 13:00	28/12/2018 12:00	22:51:24	29/12/2018 00:00	Ngoma, Karemba, Karaba, Mungoro	Open	55	RDP 00001/2016/TGI/RBV	DFT 00005/2018/JDC/TGI/RBV	Contract			

Figure 11: Scheduled Sub-section

Adjourned Auctions

The *Adjourned* sub-section lists all auctions that are re-scheduled and postponed. The entries in this sub-section are organized into a table having the following columns:

- Adjourned auction date
- Next auction date
- Reason of adjournment
- Enforcement order number
- Execution case number
- Adjournment notice

Scheduled			Adjourned		Completed		Total Count 15	15	Filter
Adjourned auction date	Next Auction Date	Reason of adjournment	Enforcement order number	Execution case number	Adjournment notice

Figure 13: Completed Sub-section

ASSETS SECTION

In the *Assets* section of the *Judgement Execution* portal (Figure 14), you can view the details of all assets scheduled to be sold at online auctions.

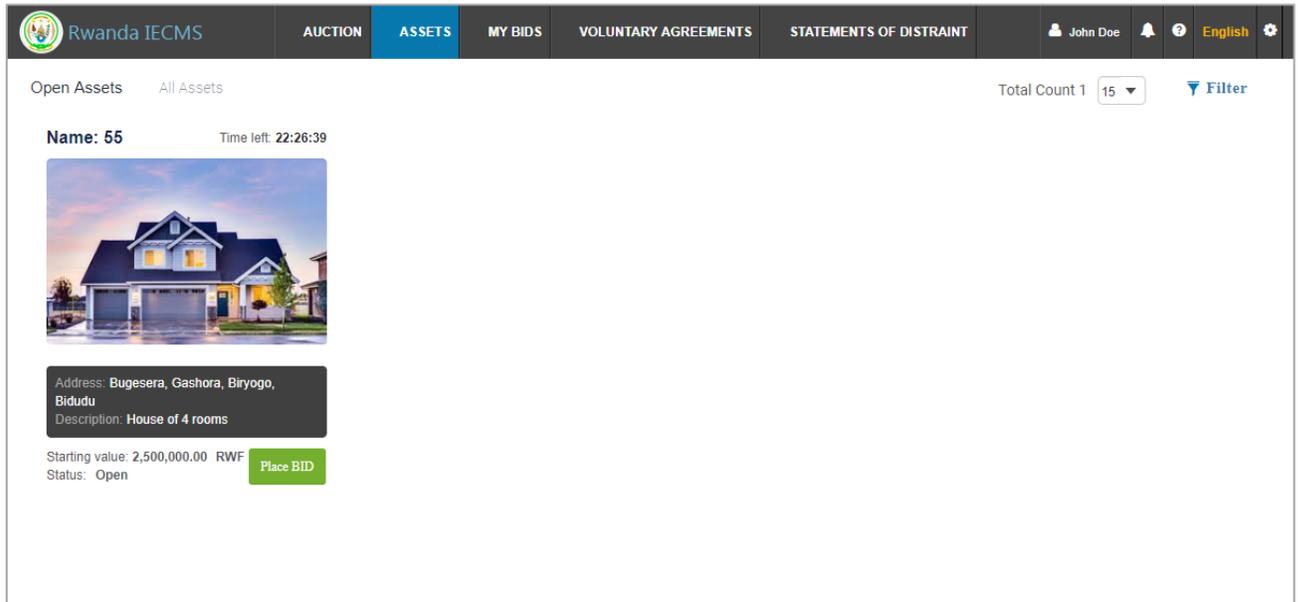

Figure 14: Assets Section

The following sub-sections are available in the *Assets* section:

- Open Assets
- All Assets

The sub-sections listed above are organized into navigation tabs for ease of record management.

Open Assets

The *Open Assets* sub-section displays assets that you can bid for. Each asset in this sub-section displays the following information:

- Name
- Time left
- Address
- Description
- Starting value

- Status

The *Open Assets* sub-section enables all registered users of the *Judgement Execution* portal to bid for assets to purchase them. For more details on how to place a bid for an asset, see *Bidding for an Asset*.

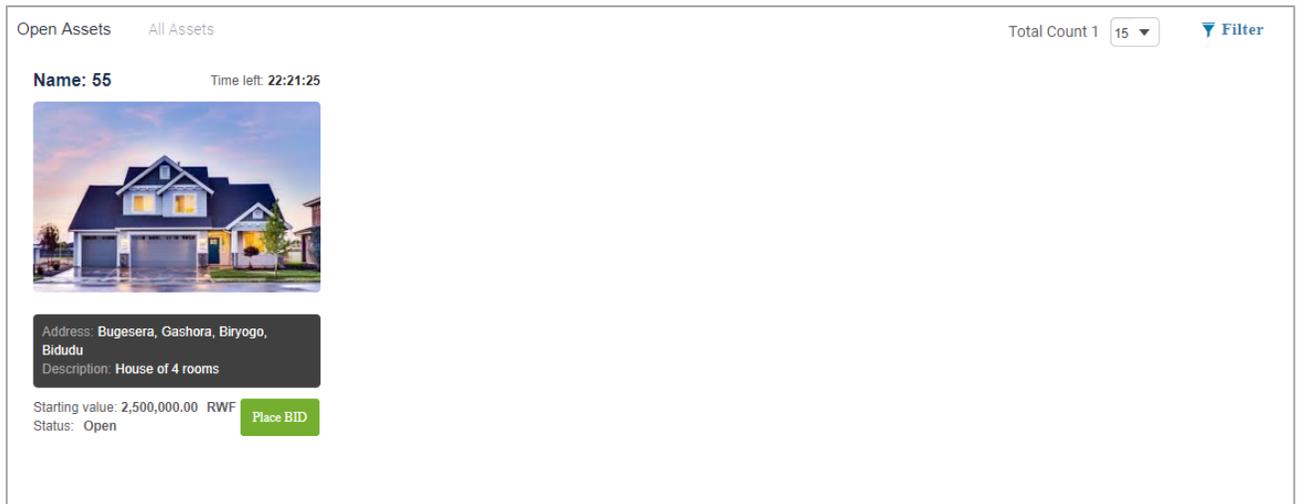

Figure 15: Open Assets Sub-section

All Assets

The *All Assets* sub-section consolidates and displays all assets that are scheduled to be sold or are sold at online auctions held in the margins of judgement execution cases. The assets in this sub-section may have different statuses, e.g. scheduled, open, etc.

Each asset in this sub-section displays the following information:

- Name
- Date and time
- Time left (for open assets)
- Address
- Description
- Starting value
- Status

The *All Assets* sub-section enables all registered users of the *Judgement Execution* portal to bid for the open assets to purchase them. For more details on how to place a bid for an asset, see *Bidding for an Asset*.

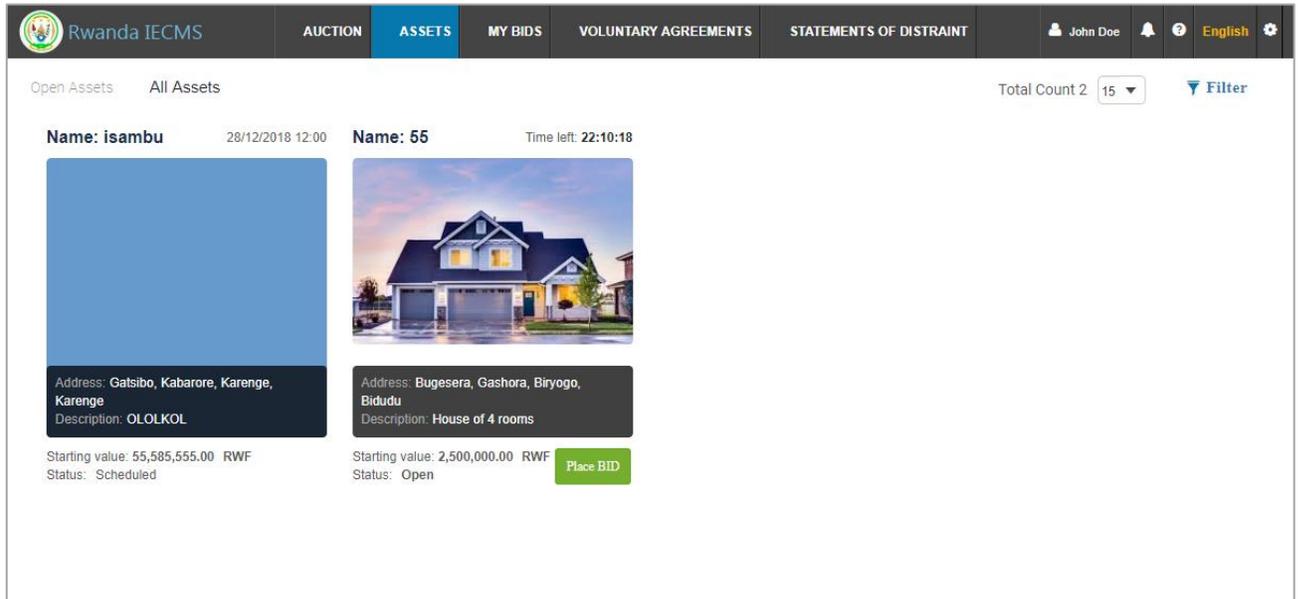

Figure 16: All Assets Sub-section

Bidding for an Asset

To place a bid for an asset, follow the steps below:

1. Click the **Place BID** button for an open asset in the *Assets* section. A *User Bid* window opens displaying the asset details (Figure 17).
2. Review the asset details and enter your bid amount in the *Your offer* field.
3. Click the **Place Your Bid** button to submit your bid.

User Bid ✕

Name: House Time left: 21:56:36

Starting value: 2,500,000.00 RWF
Description: House of 4 rooms

Your offer

Figure 17: Bidding for an Asset

MY BIDS SECTION

In the *My Bids* section of the *Judgement Execution* portal (Figure 18), you can view the details of all bids that you have ever placed.

Figure 18: My Bids Section

The following sub-sections are available in the *My Bids* section:

- Active Bids
- All Bids

The sub-sections listed above are organized into navigation tabs for ease of record management.

Active Bids

The *Active Bids* sub-section displays the assets that are currently being auctioned and for which you have placed a bid.

The entries in this sub-section display the following information:

- Item name
- Online start date
- Second phase date
- Location
- Initial value
- Time remaining

Figure 25: Statements of Distraint Sub-section

The entries in this sub-section are organized into a table having the following columns:

- Execution case number
- Enforcement order number
- Statement date
- Property owner
- Assets
- Signed copy document

FILTERING IN JUDGEMENT EXECUTION PORTAL

The different sub-sections of the *Judgement Execution* portal can contain almost unlimited number of records. So, the main challenge of working in them becomes the ability of drilling down the wealth of the data stored in the portal and locating the required entries easily and quickly.

To overcome the difficulties that manual searching for a definite entry may incur, the *Judgement Execution* portal has been incorporated with the flexible and easy-to-use filtering mechanism. This mechanism provides the portal users with a facility for easy and quick searching among all the entries that are available to them in the portal. It implies acquiring the search results based on filtering criteria. The results returned display all matches to the query.

The screenshot shows the Rwanda IECMS interface. The top navigation bar includes tabs for AUCTION, ASSETS, MY BIDS, VOLUNTARY AGREEMENTS, and STATEMENTS OF DISTRRAINT. The user is logged in as John Doe. The main content area shows a table of auction records with columns: Online start date, Online end date, Time Left, II phase date, and Second phase date. A red box highlights the filtering panel on the right, which includes dropdown menus for Asset Type (Immovable), Status, District (Bugesera), Sector, Cell, and Village. It also features date pickers for Start Date, End Date, Second Phase Date, and a search input field with checkboxes for Asset Name, Enforcement Order No, and Execution Case No. Filter and Reset buttons are at the bottom of the panel.

Figure 26: Creating Filtering Criteria

More specifically, the filtering mechanism is used to narrow down the information displayed in the different sub-sections of the online auctioning portal. It works in the Step-by-step technology, which is used to implement new filtering over the results of the previous one. This option allows narrowing down the filtering results for a smaller pool of them. The filters are easy to use and help to target the results very specifically and weed out the ones that you do not need. Using the filtering mechanism, you may perform search among the items stored in the different sub-sections of the *Judgement Execution* portal by specifying one or more search criteria.

Creating Filtering Criteria

To create filtering criteria, follow the steps below:

1. Go to the **Auction / Assets / My Bids / Voluntary Agreements** section.
2. Click the **Filter** button found in the upper right corner of the screen.
3. In the opened menu, specify the filtering criteria (Figure 26).
4. Click the **Filter** button to apply the filtering criteria. All entries matching the selected criteria are displayed on the screen (Figure 27).

The screenshot shows the Rwanda IECMS interface. The top navigation bar includes 'AUCTION', 'ASSETS', 'MY BIDS', 'VOLUNTARY AGREEMENTS', and 'STATEMENTS OF DISTRAINT'. The user is logged in as 'John Doe' and the language is set to 'English'. Below the navigation bar, there are tabs for 'Scheduled', 'Adjourned', and 'Completed'. A 'Total Count' of 15 is shown, along with a 'Filter' button. The main content area displays a table with the following columns and data:

Online start date	Online end date	Time Left	II phase date	Second phase location	Status	Assets	Enforcement order number	Execution case number	Publication Notice
27/12/2018 13:00	28/12/2018 12:00	18:56:45	29/12/2018 00:00	Ngoma, Karembo, Karaba, Mungoro	Open	55	RDP 00001/2016/TGI/RBV	DFT 00005/2018/JDC/TGI/RBV	Contract

Figure 27: Displaying Filtering Results

Removing Filtering Criteria Applied

To remove filtering criteria applied to a view, follow the steps below:

1. Go to the **Auction / Assets / My Bids / Voluntary Agreements** section.
2. Click the  icon displayed in the *Filter* panel.
Alternatively,
3. Expand the *Filter* panel and click the **Reset** button.

LOGGING OUT

Once you have finished using the *Judgement Execution* portal, it is necessary to log out. To log out from the application, click your account name in the upper right corner of the portal window and then click the **Logout** link.
